SEASONABLE STOCK OF
HILL'S CHOICE SPECIMEN EVERGREENS

For May Planting

THE H. HILL NURSERY CO.,
Evergreen Specialists - Largest Growers in America
(Since 1855)
Dundee, Illinois.

Many experienced gardeners prefer to do their Evergreen planting during the month of May, while the leaf-buds are usually swelling and root action is taking place.

From our own experience, and that of many other planters, we can highly recommend May planting of Hill's Specimen Evergreens to our garden-loving friends, with assurance of good results. Season is very backward. Can make shipment the day following receipt of order. Safe arrival guaranteed.

Remember, this one line has our entire time, attention, devotion, and study. We are true Evergreen Specialists in a sense that possesses a real value and significance. When in need of Evergreens, come to headquarters. Large and complete stock always on hand.

Let us handle your Evergreen orders and insure your getting the best quality stock and service. Your patronage will be appreciated.

HILL'S SPECIMEN EVERGREENS

All Hill Specimen Evergreens are hand dug with a solid ball of nursery soil about the roots, which is secured, tied in burlap, hence the term "balled and burlapped", and shipped by rail.

For your convenience in shipping, we will ship a lot suited to your needs, with all the plants in the lot of the same size listed below.

TRAILING, CREEPING, OR VERY DWARF

Most useful and ornamental. Fine for rockeries, borders, lining or ground cover. All in full bloom by the first of June.

1 to 3 feet high at maturity.

Spread 8 to 15 feet in diameter.

		Feet	Each	10
25	Juniperus horizontalis (Blue, Deep Green)	2-2 1/2	\$6.00	\$52.50
30	Juniperus Canadensis (Dwarf, Light Green)	1-1 1/2	2.65	22.50
25	" " " " " "	1 1/2-2	3.50	30.00
30	Golden Dwarf Juniper (Dwarf, Bright Gold)	1-1 1/2	2.65	22.50
25	" " " " " "	1 1/2-2	3.50	30.00
50	Japanese Trailing Juniper (Creeping, Deep Green)	1-1 1/2	2.75	25.00
40	" " " " " "	1 1/2-2	4.25	35.00
15	" " " " " "	2 1/2-3	7.50

5 of same variety and size at 10 rate.

(over)

DWARF OR LOW GROWING VARIETIES

Excellent for Foundation Planting, Low Groups, Terraces and Conifer Beds. Splendid where permanent effects are wanted without obstructing the view.

Average height 4 to 6 feet at maturity.
